

## SMR110 SOIL MOISTURE RECORDER

## Features

- High accuracy sensor
- Fast response time
- Simple soil insertion (vertical or horizontal orientation)
- Programmable start time and date
- Miniature size
- User calibration through MadgeTech software
- Weatherproof enclosure
- Probe is powered from data recorder's battery. No external power required.

## Applications

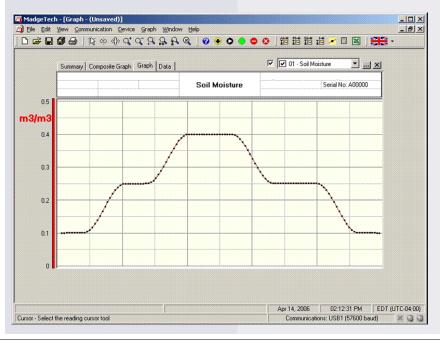

- Irrigation Management
- Potted plant and greenhouse monitoring
- Soil moisture trends
- Plant growth studies
- Peat Moss and organic soil studies

The SMR110 is a small, battery powered, soil moisture data recorder in a weatherproof enclosure. It provides accurate volumetric water content measurements over a complete range from dry to saturated. The SMR110 features a 10-year battery for long-term deployments.

for long-term deployments and soil studies, over multiple seasons. With it's built-in memory, the data recorder can monitor and record over 32,767 soil moisture measurements. The EC-5, a high accuracy soil moisture probe (pictured above), has a response time of 10ms and can be placed in any type of soil. The EC-20\* probe (below) is designed for use in medium-textured soils. For easy soil moisture analysis and trend information, MadgeTech software provides a time and date stamped graph. This data may be viewed, printed or exported to third-party programs (Excel, etc...) for more detailed analysis and irrigation management. Soil moisture data is essential in determining and scheduling irrigation for proper plant growth, care and research. This data is also useful in determining the health of the soil and plant root systems.

The \*EC-20 Soil Moisture probe (pictured below) is also available for use with the SMR110

MadgeTech Data Recorder Software displays water per soil content data in an easy to use graph.

The Windows<sup>®</sup>-based software package allows the user to effortlessly collect, display and analyze data. A variety of powerful tools allow you to examine, export, and print professional looking data with just a click of the mouse.
