

NEW from Honeywell Analytics

NEW CONFINED SPACE KIT

All-in-one safety solution featuring Impact Pro!

Honeywell Analytics' confined space entry kit includes the multi-gas Impact Pro portable detector and a full array of accessories—everything needed to help ensure worker safety from hazardous gases. Backed by a lifetime warranty against breakage by Pelican, the carrying case is water-tight and impact-resistant to protect sensitive equipment in transit and from environmental elements. Carrying case is included as an element of the confined space kit or can be purchased separately.

Standard Impact Pro Confined Space Kit

Standard Impact Case with Impact Pro, multi-gas (O₂, CH₄, CO, H₂S) sensor cartridge, data/charging cradle, power supply, charger kit and rechargeable batteries, USB to RS232 data cable, and 10 meter sample tube.
