

The DryPro Series valve for bulk solids handling and is suitable for corrosive applications. By rotating the ratchet type handle the heavy duty nylon fabric diaphragm opens and closes like that of an Iris of a camera.

SERIES : DPS
PART NUMBER : DPS-008
MATERIAL : PP
SIZES : FULL 8" ORIFICE
DIAPHRAGM : NYLON FABRIC
FDA APPROVED

Lightweight

Corrosion Resistant

Ideal for Dry Solids

Features

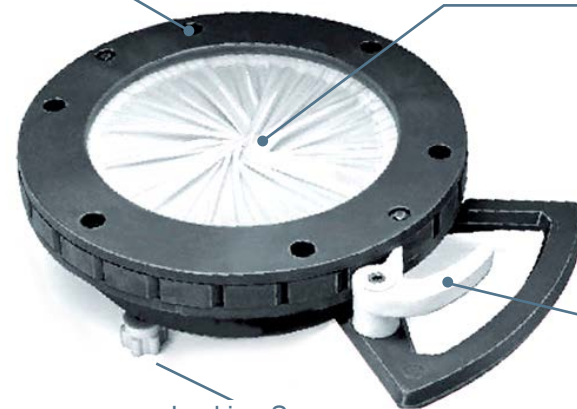

- ▶ **High Chemical Resistance**
All Plastic Body of Glass Reinforced Polypropylene and Nylon diaphragm provides excellent corrosion resistance to a wide range of materials
- ▶ **No contamination of product**
Perfect for corrosive environments
- ▶ **Approved for Food**
Materials of construction are food approved
- ▶ **Adjustable Flow Capacity**
Orifice diameter is adjustable by rotating control handle. Position lock holds opening in diaphragm.
- ▶ **Easy Installation**
Valve is lightweight and has 6 bolt holes for mounting onto 8" hopper flange

Full Port Design

Excellent Corrosion Resistance

Tough Nylon Fabric Diaphragm to provide long maintenance-free operation

Locking Screws

Throttling Ratchet Action Trigger

Full Port Design

All Plastic High Impact Lid
