#### Checking the Contents of the Package

Download the latest version of the LL50A and USB driver software from the following URL;

# https://www.yokogawa.com/ns/ll50a/download/

#### 1. Safety Precautions

The following symbol is used on the instrument. It indicates the possibility of injury to the user or damage to the instrument, and signifies that the user must refer to the user's manual for special instructions. The same symbol is used in the user's manual on pages that the user needs to refer to, together with the term "WARNING" or "CAUTION."

Calls attention to actions or conditions that could cause injury to the user or damage to the instrument or property and indicates precautions that should be taken to prevent such occurrences.

#### Note

Identifies important information required to operate the instrument.

## 3. Installing USB Converter Driver Software

- Install USB converter driver software as an administrator.
  Avoid entering just the drive as the installation location, such as C:\. Enter the full directory path.
- - Before installing USB converter driver software, quit all running applications.
  - When reinstalling USB converter driver software, uninstall the installed USB converter driver software first, and then reinstall USB converter driver software.

# 1. Start Windows.

- 2. Double-click the downloaded zip file to extract the files.
- **3** In the extracted folder, right-click the downloaded file, and click Run as administrator Double-click setup.exe.
- 4. The User Account Control screen appears. Click Yes.

## 5. Installshield Wizard screen appears. Click Next.

# 6. Click Install.

7 The Windows Security screen appears. Click Install. (USB device driver)
Windows Security

8. The Windows Security screen appears. Click Install. (COM port driver)

Name: YOKOGAWA USB Serial Port Driver Publisher: Yokogawa Electric Corporation	
Always trust software from "Yokogawa Electric Corporation".	Install Don't Install
You should only install driver software from publishers yo software is safe to install?	u trust. How can I decide which device

#### **g** When installation is complete, the Finish dialog box appears. Click **Finish**.

	InstallShield Wizard Complete The InstallShield Wizard has successfully installed YOK0GAWA A1053UR Installer. Click Finish to exit the wizard.
--	---

The dialog box closes. You have completed installing the driver software

When you connect the dedicated cable to a USB port on your computer, the driver becomes available automatically.

#### Verifying Installation

- **1**, For Windows 11:
- Right-click the **Start button** and then click **Device Manager** in the list. For Windows 10:
- In the Windows search bar, type **Device Manager** and then click **Device Manager** in the pop-up window.
- For Windows 8.1:

Hold down the **Windows key** and press **X**, and then click **Device Manager** in the list.

Verify that the virtual COM port driver (1) "YOKOGAWA USB Serial Port (COMn)" is displayed under "Ports (COM & LPT)" as COM port and the USB device driver (2) "YOKOGAWA USB Serial Converter A1053UR" is displayed under "Universal Serial Bus controllers."

3 The COM port number assigned to the dedicated cable can be verified by the port number displayed in (1) "YOKOGAWA USB Serial Port (COMn)" of Device Manager (see the step 3). To change the COM port number, doubleclick (1), select Port Settings tab of Properties screen and click Advanced. Change the COM port number in the Advanced Settings for COMn screen.

#### 4. Installing LL50A Parameter Setting Software

- Install the software as an administrator.
   Do not set LL50A user file save directory in Program Files folder. The LL50A will not work properly.
- CAUTION Before installing LL50A Setting Software, quit all running applications.
  - Avoid entering just the drive as the installation location, such as
     C:\. Enter the full directory path.
  - When NET Framework 4.0 is not installed on personal computer, .NET Framework 4.0 is installed to start LL50A.
  - When reinstalling LL50A, uninstall the installed LL50A first, and then reinstall LL50A.

#### Installing LL50A Parameter Setting Software

#### 1. Start Windows.

- 2. Double-click the downloaded zip file to extract the files.
- *3.* In the extracted folder, right-click the downloaded file, and click Run as administrator Double-click setup.exe.
- 4. When .NET Framework 4.0 is not installed on a personal computer, the license agreement for installing it appears. Click **Accept**.
- **5** The message "Copying required files" appears. And then the message "Installing .NET Framework 4.0" appears.
- 6. The User Account Control screen appears. Click Yes.
- Z The message "Please wait while Setup configures the components." appears.
- 8. The message "Setup must reboot before proceeding." may appear. Click Yes.
- **Q** Personal computer reboots. The LL50A Setup Wizard appears. Click **Next**.

**10.** The License Agreement for Package Software Product appears. Read this license agreement carefully. If you agree, select **I Agree**. Click **Next**.

Note: If I Do Not Agree is selected, you cannot install the LL50A. Click Cancel.

11. The Select Installation Folder screen appears. Select Everyone or Just me. Click Next.

#### Note

When you install the LL50A after "Everyone" is selected, even if other users log in, it is possible to start LL50A from the **Start menu > Programs menu**. When you install the LL50A after "Just me" is selected, even if other users log in, LL50A is not displayed in the **Programs**.

**12.** The Setup Type screen appears. Select **Complete** and click **Next**. (We recommend choosing **Complete**.)

		•	
Choose the setup type that best suits your n	eeds		
All program features will be instal	ed. (Requires most disk	space)	
Custom Allows users to choose which pro installed. Recommended for advi	ogram features will be ins anced users.	talled and where the	y will be

- Note1: If you chose Complete, go to the procedure 13.
- Note2: If you chose Custom, continue the procedure as follows: Choose each installation method (\*1) of LL50A, or Profile and Setting, then click Next.

\*1: Profile is to install Network Profile Tool.

Setting is to install Parameter Setting Tool. (1) On the LL50A, select Entire feature will be installed on local hard drive. (2) On the Profile and Setting, select either Will be installed on local hard drive, or Entire feature will be unavailable.

- 13. The Confirm Installation screen appears. Click Next.
- . . .
- **14.** The message "Installing LL50A" appears. The User Account Control screen appears. Click **Yes**.
- **15.** Installation begins. When installation is completed, a confirmation message appears. Click **Close**.

The following icons are appeared on the desktop.

You have completed installing the LL50A parameter setting software.

#### Verifying Installation of LL50A Parameter Setting Software

For Windows 11:

[UTAdvanced] - [Setting Tool] and [Network Profile Tool] will be registered under All apps in the Windows Start menu.

For Windows 10:

[UTAdvanced] - [Setting Tool] and [Network Profile Tool] will be registered under Apps in the Windows Start menu.

For Windows 8.1:

From the **Start menu** of Windows, point to **All Programs**, then **UTAdvanced** and verify that the **Setting Tool** and the **Network Profile Tool** is registered.

#### Uninstalling LL50A Parameter Setting Software

For Windows 11/Windows 10:

On the Windows Start menu, click Settings > Apps > Apps & Features > LL50A and uninstall it. For Windows 8 1:

Hold down the **Windows key** and press **X**, and then click **Uninstall a Program > Programs and Features > LL50A** in the list and uninstall it.

The User Account Control screen appears. Click Yes. The LL50A is uninstalled.

\*1: From the **Start menu** of Windows, select **Control Panel > Uninstall a program** if the control panel's display method is "Control Panel Home."
