Model Number*	Description
TREX2TUCHPKLWP3S	Trex 2, **HART**, IS, Wireless, Support + Repair 3 Years, Carrying Case
TREX2TUCHPKL9P3S	Trex 2, **HART,** IS, Support + Repair 3 Years, Carrying Case
TREX2TULHPKLWP3S	Trex 2 **w/Power the Loop**, **HART**, IS, Wireless, Support + Repair 3 Years, Carrying Case
TREX2TULHPKL9P3S	Trex 2 **w/Power the Loop**, **HART**, IS, Support + Repair 3 Years, Carrying Case
TREX2TULFPKLWP3S	Trex 2 **w/Power the Loop**, **HART+FF**, IS, Wireless, Support + Repair 3 Years, Carrying Case
TREX2TULFPKL9P3S	Trex 2 **w/Power the Loop**, **HART+FF**, IS, Support + Repair 3 Years, Carrying Case

*The model number and serial number of the trade in unit must be provided on the purchase order.

Take Advantage of the Most Comprehensive, Rugged, Do-it-all Field Communicator on the Market.

COMMUNICATE TO AN EVER-GROWING LIST OF THOUSANDS OF INSTRUMENTS AND DEVICES

+2600 Devices Supported: Auto-update to the latest Device Descriptors **(see list here).**

Still an Emerson 475 Field Communicator user? Upgrading to Emerson's AMS Trex will unlock access to over 650 additional devices **(see list here).**

FEATURES AND BENEFITS:

Rugged, Reliable, and Intrinsically Safe

Designed to withstand the harsh conditions in manufacturing facilities and meet global Intrinsic Safety requirements.

Designed for Use

Designed for comfortable, one-handed, all-day use in the field. The screen also operates while wearing gloves.

Power the Loop

Allows device configuration in the field before power and I/O infrastructure are in place. Simply connect to an instrument or valve to power it.

Adjustable Display, Superior UI

Easily change display to save power or adapt to dark environments or bright sunlight, ensuring a crisp display that can be read. Large touch screen for better viewing and easier navigation; intuitive instrument dashboard and graphics.

Auto Sync

Maintain data integrity in your AMS Device Manager database without any technician intervention.

APP LIBRARY, FEATURING:

Field Communicator

Delivers a wide range of options for configuring and troubleshooting HART and FOUNDATION Fieldbus devices.

Loop Diagnostics

Power the loop in the field and perform loop troubleshooting and checkouts. Also, isolate and troubleshoot wiring issues.

Fieldbus Diagnostics

Get the necessary toolset for troubleshooting and validating FOUNDATION Fieldbus segments.

***Wireless*HART Provisioning**

Provision *Wireless*HART networks in less time, with less chance of error and in a more secure fashion.

Radar Master

Create the geometric profile of Rosemount radar level gauges directly at the tank.

ValveLink Mobile

Configure, calibrate, and diagnose Fisher FIELDVUE digital valve controllers.

Calculator

Includes a calculator, conversion for base conversions, loop converter/Ohm's law calculator, and unit converter.

PDF Viewer

Transfer PDF files to AMS Trex to easily access manuals, work processes, notes, and any other PDFs in the field.
