

QUICK GUIDE

EE046 - Condensation Monitor

This quick guide provides some information on EE046 connectivity as well as status indication and relay controlled output.

Please note: The mounting location shall be selected very carefully. Crucial is always the least favourable site, usually the one with the highest humidity.

Connection Diagram / Status Indication

* ⚡ Relay status for power on and RH < Threshold.

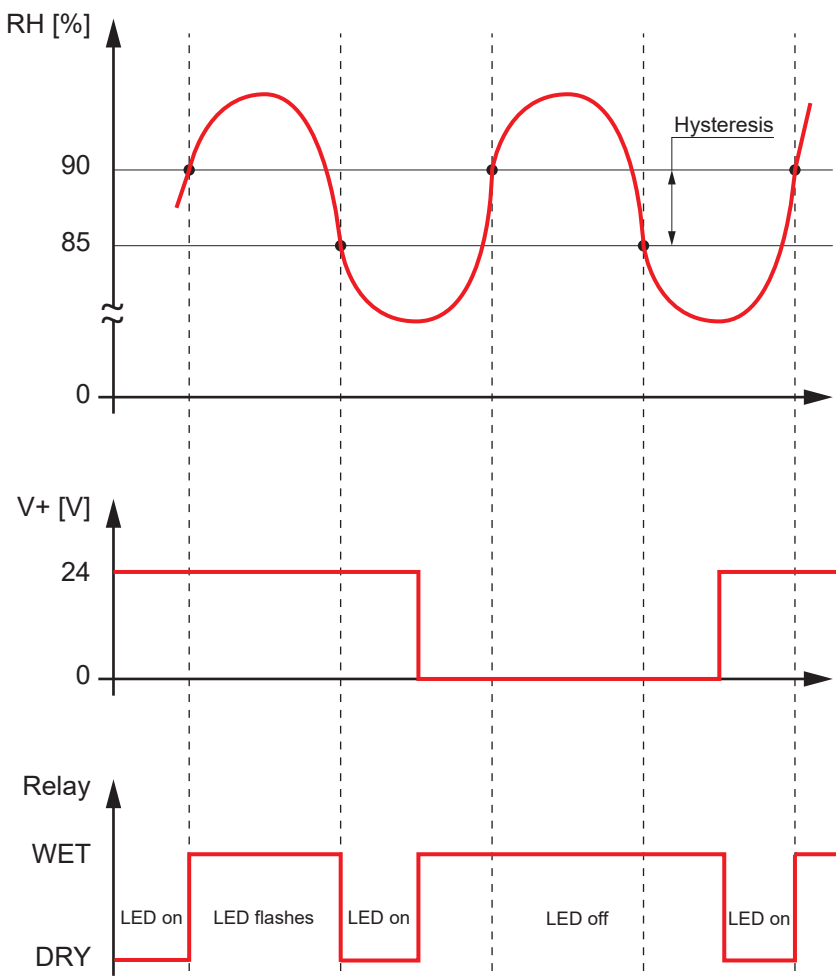

⚡ The relay falls to "WET" for RH > Threshold or power off.

LED ON: no condensation danger

LED flashes: condensation danger

LED OFF: power supply off / failure

Relay Function
